

CAREER PROFILE

Full Stack Web Developer with a focus on JavaScript, versed in building beautifully responsive and intuitive front-ends and efficient and resilient back-ends. The things I build focus on their essence. I believe a site works best when it does what it's supposed to in a simple, uncluttered way. I currently do contract and subcontract work through my company, Holistic Web Solutions.

EXPERIENCES

Owner, Full Stack Web Developer

2019 - Present

Holistic Web Solutions

At Holistic Web Solutions I create comprehensive web solutions uniquely designed for clients and their brand.

I use cutting edge technologies like React, Gatsby, NetlifyCMS and more to deliver fast, responsive, and user-focused web experiences that drive brand growth and engagement.

Assistant Director of Development

2020 - Present

California State University, Northridge, College of Engineering & Computer Science

As the Assistant Director of Development for the College of Engineering & Computer Science I manage and cultivate high-value and high-profile donor relationships, coordinate and execute premiere fundraising events, and use data-driven best practices to achieve revenue growth and sustainability.

PROJECTS

Source code for the following projects, with the exception of Beyond the Block and Imprint Entertainment, can be found on my GitHub.

Beyond the Block, Inc. - A custom website and blog created with Gatsby and NetlifyCMS for the San Francisco-based nonprofit Beyond the Block, Inc.
www.beyondtheblock.org

Imprint Entertainment - A custom website built for simplicity and clarity for the Los Angeles-based production company Imprint Entertainment.
www.imprint-ent.com

itsNate.dev - My personal site built with Gatsby.
www.itsnate.dev

Holistic Web Solutions - Company site for Holistic Web Solutions built with Gatsby.
www.holisticwebsolutions.com

JES - JavaScript Entertainment System - A full MERN stack application that brings your favorite classic arcade games to the comfort of your own web browser, built with React, Node, Express, MongoDB, and Firebase.
